

Reader's Digest Easter Eggs – Rockwell and Rockwell

The April 1944 edition of *Reader's Digest* featured illustrated Easter Eggs of all the allied nations. The art was created by famous artists. The eggs for the US and Soviet Union were done by Norman Rockwell and Rockwell Kent, respectively. This is the only known time that the two artists were featured together.

The front and back covers are shown below, followed by a key to the eggs and artists:
